

USER MANUAL

Instructions

To ensure this lamp is under an optimal condition, please read this manual carefully prior to operation

Touch sensor switch is applied to this lamp, and it has 3-levels of different brightness: single touch gives lowest brightness. Double touches medium and three touches the strongest. Adjustable brightness can meet various demands of different environments

After fully charged, the lamp will last 8 hours consecutively in the dimmest light;
5 hours medium light and 3 hours in brightest

The batteries need charging when lamp is dimming. Please stop using the lamp, and recharge ,Failure to recharge at this time will affect the performance and reduce the life time of this lamp.

Cautions

- 1.Immediately recharge the lamp when the brightness becomes dim.
- 2.Charge the lamp for at least 2 hours before first use.
- 3.Please charge the lamp fully before initial use. It takes 2 hours to reach a full charge
- 4.If this lamp is not used for a long time, please charge it at least once in 30 days to prevent the battery from aging.

Specifications

Battery capacity:800 Ma
Input voltage: DC 5V/1A
Material: ABS & silicone
CCT: 5500-6000 K
Lifespan: 50,000hours
Light intensity: 3 levels
Brightness: 600 lx
Switch: touch sensor
Power: 0.2W/pcs led
Charging time: 2-4 hours

Package content

1*LED light
1*USB cord
